COSHH Safety Data Sheet

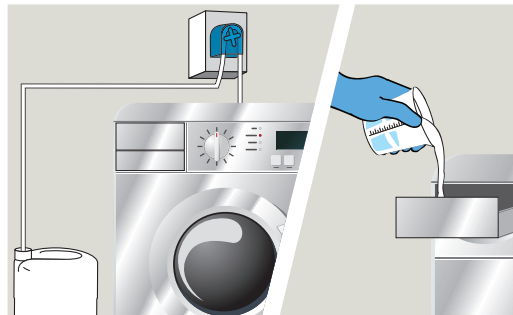

Scan for further product details

1 Use appropriate PPE as indicated in safety data sheet.

2 Connect to an automatic dosing system. Dispense 4-6ml per kilo of dry wash. Alternatively pour into main wash dispenser.

3 Make sure laundry detergent is connected to the dosing unit or added to the machine. We recommend using Jangro Premium Laundry Liquid BP210 or BP215.

4 Select wash program following garments instructions and start.
