

Persil Professional Non Biological Powder

Description

Persil Professional Non Biological is a Zero-P mainwash detergent formulated for use in domestic and on premise laundries. The product is a premium powder suitable for washing all white cotton and polycotton fabrics and colourfast articles. Persil Professional Non Biological should be manually dosed via the dispenser drawer.

Key properties

Persil Professional Performance Non-Biological(no enzymes) is a Zero-P detergent powder, based on an effective blend of surfactants, water hardness sequestrants, anti-greying and anti-corrosion agents, alkaline salts and medium temperature bleach system.

The well-balanced surfactant blend results in excellent fatty/oily and particulate soil removal and dispersion of soil components.

The zeolite based building system ensures low water hardness ion concentration and consequently prevents precipitation of detergent components. In this way zeolites also function as anti-greying agents by preventing formation and deposition of water hardness salts onto fabric. In addition ingredients with anti-redeposition and anti-incrustation properties have been included in the product.

Persil Professional Non Biological has also been formulated with silicates, which function as anti-corrosion agents, and optical brightener ensuring long-lasting whiteness of fabrics.

The product contains a bleach system for application at low - medium temperatures (40 – 60 °C) and bleach stabilising agents, preventing fabric damage. The absence of enzymes makes it suitable for use by people with serious skin conditions.

Persil Professional Non Biological is based on new processing technology, has excellent dispensing properties and fast dissolution.

Benefits

- Excellent performance on a wide range of stains and types of soil
- Prevents greying of fabric; stabilisation of soil particles in the wash liquor
- Ensures long-lasting whiteness
- Effective low - medium temperature bleaching (minimal fabric damage)
- Prevents corrosion of machine part
- Contains an excellent fragrance

Use instructions
